	Application No.	Applicant(s)
Notice of Allowability	10/650,266	LEWALLEN, DAVID G.
	Examiner	Art Unit
	Samuel G Gilbert	3736
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.		
1. This communication is responsive to <u>telephonic interview of 9/28/2004</u> .		
2. The allowed claim(s) is/are 2,7,10 and 11.		
3. The drawings filed on 28 August 2003 are accepted by the Examiner.		
4.		
Attachment(s) 1. Notice of References Cited (PTO-892) 2. Notice of Draftperson's Patent Drawing Review (PTO-948) 3. Information Disclosure Statements (PTO-1449 or PTO/SB/0 Paper No./Mail Date 4. Examiner's Comment Regarding Requirement for Deposit of Biological Material	6. Interview Summary Paper No./Mail Dai 98), 7. Examiner's Amendr	te <u>9/28/2004</u> .

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Barry Sammons on 9/27/2004.

The application has been amended as follows:

Claims 8 and 9 have been canceled.

New claims 10 and 11 have been added.

Claim 10. (New) A method for reducing compressive forces on soft tissue disposed between the pelvis of a subject and supporting structure, the steps comprising:

implanting a first permanent magnet into a bone of the subject's pelvis; and fastening a second magnet to the supporting structure such that a repelling force is produced that acts on the first and second magnets to reduce the compressive force acting on the soft tissue disposed therebetween when the subject is seated on the supporting structure.

Art Unit: 3736

Claim 11. (New) The method as recited in claim 10 in which the first permanent magnet is implanted in the ischial tuberosity bone.

The following is an examiner's statement of reasons for allowance: The prior art does not teach a method as claimed including implanting a magnet into a bone of the subjects' pelvis and fastening a magnet to a support surface such that the two magnets produce a repelling force to reduce the compressive force on the tissue as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel G Gilbert whose telephone number is 703-308-3553. The examiner can normally be reached on M-F 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on 703-308-3130. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 10/650,266

Art Unit: 3736

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
